Forecast For East of England
Issued by Met Office Exeter
at 0400 on Friday 23 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Early low cloud clearing, leaving plenty of warm sunshine today.

Today:
Early low cloud will retreat back to the coast, leaving another fine day with plenty of warm sunshine, although hazier compared to recent days. It will feel cooler along North Sea coastal areas, especially with an onshore breeze. Maximum temperature 25 deg C (77 deg F).

Tonight:
Low cloud will drift back inland overnight, becoming widespread by the morning. Otherwise, dry with some clear spells in the south and west. Another warm night for many. Minimum temperature 14 deg C (57 deg F).

Saturday:
Early low cloud burning back to the coast, with some warm sunny spells developing. A band of rain, heavy and thundery will arrive from the south during the afternoon. Humid. Maximum temperature 22 deg C (72 deg F).

Outlook for Sunday to Tuesday:
Becoming more changeable next week, with further heavy showers and thunderstorms likely throughout the period. Feeling cooler compared to recent days, with temperatures trending towards the average.
